

Environmental Policy Statement

Quartztec Europe Limited recognises its legal and moral responsibility to manage the environmental impact and performance in all our business operations. In doing so we will actively engage with the industry sectors in which we operate and all other stakeholders to help ensure the sustainability of our environment for the benefit of our society, service sectors and the continual improvement of our services. To fulfil this obligation the business will provide the necessary organisation, commitment and leadership.

It is acknowledged our objectives will only be realised through knowledgeable and appropriately trained staff anticipating and eliminating potential environmental problems through good work planning, practice and delivering on our company values.

We aim to achieve this by:

- ✓ Complying with all relevant environmental legislation, regulations, approved codes of practice and recognised standard ISO 14001;
- ✓ Protecting the environment by striving to prevent and minimize our contribution to pollution of land, air, water by actively reviewing our practices and the development of new technologies to aid the business in this endeavour;
- ✓ Giving consideration to alternative fuels and technologies to control, monitor and reduce the fuel consumption and emission levels of all vehicles.
- ✓ Seeking to keep consumption and waste to a minimum to maximize the efficient use of materials and resources with environmental considerations in mind;
- ✓ Providing training for our staff so that we all work in accordance with this policy and within an environmentally aware culture where each staff member has a personal responsibility to maintain high standards of environmental care;
- ✓ Promoting a culture in which managers demonstrate Environmental leadership
- ✓ Allocating clear responsibilities to implement and achieve on our policies and those of our clients
- ✓ Regularly consulting with, and communicating our environmental policy and performance to our employees and other interested stakeholders;
- ✓ Ensuring contractors and stakeholders have access to our environmental policy
- ✓ Promoting environmental awareness and objectives with our contractors, suppliers and partners
- ✓ Developing our management processes to ensure that environmental factors are considered during planning and implementation;
- ✓ Improving our environmental performance by setting realistic and achievable objectives and targets including the monitoring and review of our performance against these
- ✓ Carrying out internal inspections, audits and review for the identification of continual improvement and setting objectives

Directors, management and supervisory staff have responsibilities for the implementation of the policy and must ensure that environmental issues are given adequate consideration in the planning and day- to-day supervision of all work.

All employees and subcontractors are expected to co-operate and assist in the implementation of this policy, whilst ensuring that their own work, so far as reasonably practicable, is carried out without risk to themselves, others or the environment. This includes co-operating with management on any environment-related matter.
